Summer 2022

We will ensure community use for Village Hall future

Our Village Hall has been unavailable for community use since defects were discovered in the fabric of the building in 2017. An extensive refurbishment and redecoration programme has been undertaken to enable lettings to resume. This should have been from 2020 but Covid intervened. The hall was then a testing centre until May this year.

EBC contacted prior users and learned that

they had found alternative venues. An agent was then employed to search the market for potential community users. The only option at that stage appeared to be a not-for-profit academy who would also rent out part of the space. However, a charitable trust has now indicated possible interest in running the premises as a traditional village hall. Both options are under evaluation.

We'll ensure community use for Village Hall
